

Your agency's own website + admin CRM

Professionally built, fully managed — live in one week.

A complete online presence for independent real estate agencies, serviced-apartment operators and property developers. Your buyers browse and enquire on a fast, modern website; your team manages everything from a private admin area — no technical skills needed.

What your customers see

- Property listings with photos, prices and amenities
- Powerful search — suburb, type, price, bedrooms
- Serviced-apartment booking with live availability
- Interactive maps for every property
- Client testimonials and seller enquiry forms
- Fast, mobile-friendly, secure (SSL)

What your team gets

- Private admin dashboard (a simple CRM)
- Add or edit listings yourself — no developer
- Buyers, sellers and enquiries in one place
- Booking calendar with Airbnb / Booking.com sync
- Follow-up reminders so no lead goes cold
- One-click Excel exports for reporting

Founding-client pricing

One-time setup	Monthly care plan
A\$1,500 Your branding, your listings loaded, domain connected, staff walkthrough	A\$75/month Hosting, SSL, backups, software updates and email support — cancel anytime (30 days)

Founding-client rate for my first two agency partners, in exchange for a short testimonial. Standard pricing thereafter from A\$2,500 setup + A\$100/month.

How it works

1. Chat (30 min) — we go through your branding, listings and what you want the site to say. **2. Build (days 1–5)** — I set up your site, load your properties and connect your domain. **3. Live (day 7)** — walkthrough with your team, and you're taking enquiries.

See it live right now: pinnaclerealty.netlify.app — a full working demo with sample Australian listings, bookings and admin.
